

# Hope Valley College

## Extracurricular Provision Booklet

### Autumn Term 2025

Hope Valley College has a long history of extracurricular involvement. Since opening in 1958 Hope Valley College has been in the heart of the community, offering a range of further curriculum opportunities for both students and adults!

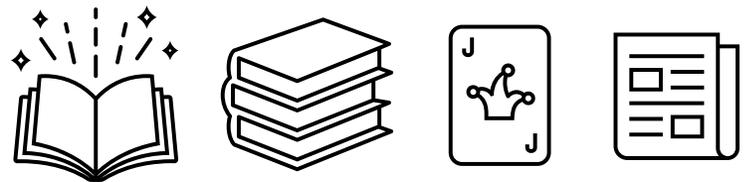

Extracurricular involvement still defines Hope Valley College, and staff and students pride themselves on their participation, excellence and involvement. We are passionate about the wider curriculum opportunities we offer, and care about the personal development of our students. We love developing relationships with young people through the wider curriculum; these relationships underpin successful learning in lessons.

Our wider curriculum offer allows students to develop their readiness-to-learn, independent and problem-solving skills, and qualities such as empathy and respect. We also believe it is vital that young people get the opportunity to navigate positive mental health strategies, allowing students to relax, improve resilience, and learn how to cope in potentially stressful situations. We have many sessions tailored with this in mind.

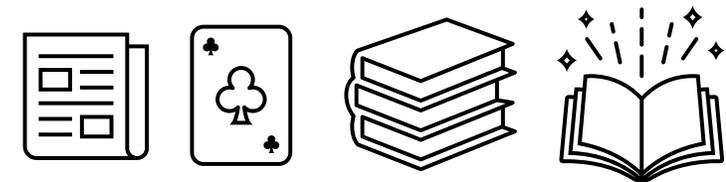

This year, students are given more opportunities than ever to access wider curriculum opportunities, and we are working to reduce challenges that may prevent young people from taking part.

See our comprehensive timetable and get a flavour of what Hope Valley College is about!
